What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

How will you choose investments to recommend to me?

Fees, Costs, Conflicts, and Standard of Conduct

What fees will you pay?

We are a fee-based investment firm, meaning we charge you a percentage of your portfolio. Our fees are based on how much we are managing for you. Please note that you will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. It is important to understand the fees and costs you are paying. A minimum annual fee of \$3,000 applies to qualified plans, SIMPLE IRAs, and SEP IRAs. Examples of fees you will pay are custodial fees and fund expenses. *More information can be found in our ADV Part 2A.*

ANNUAL INVESTMENT FEE: Maximum 1%

Help me understand how these fees and costs might affect my investments. If I give you \$500,000 (our account minimum) how much will go to fees and costs, and how much will be invested for me?

What are our legal obligations when acting as your investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. For example, our investment fees are aligned with assets under management which does provide an incentive to encourage increased assets in your account. This could be perceived as a conflict of interest. More information can be found in our ADV Part 2A.

How might your conflicts of interest affect me and how will you address them?

How do your financial professionals make money?

Our financial professionals are paid a salary and are not compensated by product sales, commissions, or investment recommendations made to you. Firm revenue is derived by the investment advisory, financial planning, and retirement planning services we provide to our clients.
